

This form must be completed and submitted with every assignment, as per the department's Academic Integrity and AI Policy. Transparency is essential to proving your creative ownership and learning process.

Part 1: Student & Assignment Details

Student Name: Rebekah Borg Caruana
Unit: Web Development Date: 17/05/2026

ID Number: 0254101L
Task: 2

Part 2: Declaration of AI Use

Please select one of the following options:

- ☐ **Option A: No AI Used:** I declare that I did not use any generative AI tools in the conception, development, or creation of this assignment. The submitted work is entirely my own.
- ☒ **Option B: AI Used:** I declare that I did use AI tools to assist in the creation of this assignment. I have provided a transparent and accurate account of its use in Part 3 below and have submitted all required process work in support of my final submission.
-

Part 3: Description of How AI Was Used

(Please tick all that apply and provide a brief, specific example for each. For an explanation of each refer to the AI Use Policy Manual)

- ☐ Ideation & Brainstorming ☐ Research & Summarization
- ☒ Text Generation & Refinement (Writing/Scripting) ☒ Image/Asset Generation:
- ☒ Other (Please specify):

I planned out the site on Canva and asked Claude/Duck AI to generate the code. I then made adjustments where the information, within hrefs for instance, I inserted the page names myself e.g. about.html where normally there was a hashtag. When I generated pages and they were in a different style or colour scheme I asked it to follow the original layout. Article names, blurbs and other information was generated. Title page names and the About Page text were written by me. For the beginning setup of the index (homepage), I wrote the starting comments, the rest came with the generated code. (Asset generation which is ticked above is referring to code). In conclusion, I made a visual style on Canva and put it into Claude/Duck AI to code it for me. When it had better/complementary visuals I used them and when the visual style did not quite match I prompted it further to adjust. I had used Claude into 2 instances, once Incognito and one not. I don't have access to the Incognito one but I do have some downloads of the code of the other instance.

☒ I confirm that the information provided on this form is a complete and accurate representation of my use of AI tools for this assignment. I have read and understood the Academic Integrity and AI Policy, and I am aware that failing to declare AI use, or misrepresenting its use, constitutes **plagiarism** and will result in disciplinary action.
